

Ol' Don's Drawing Table

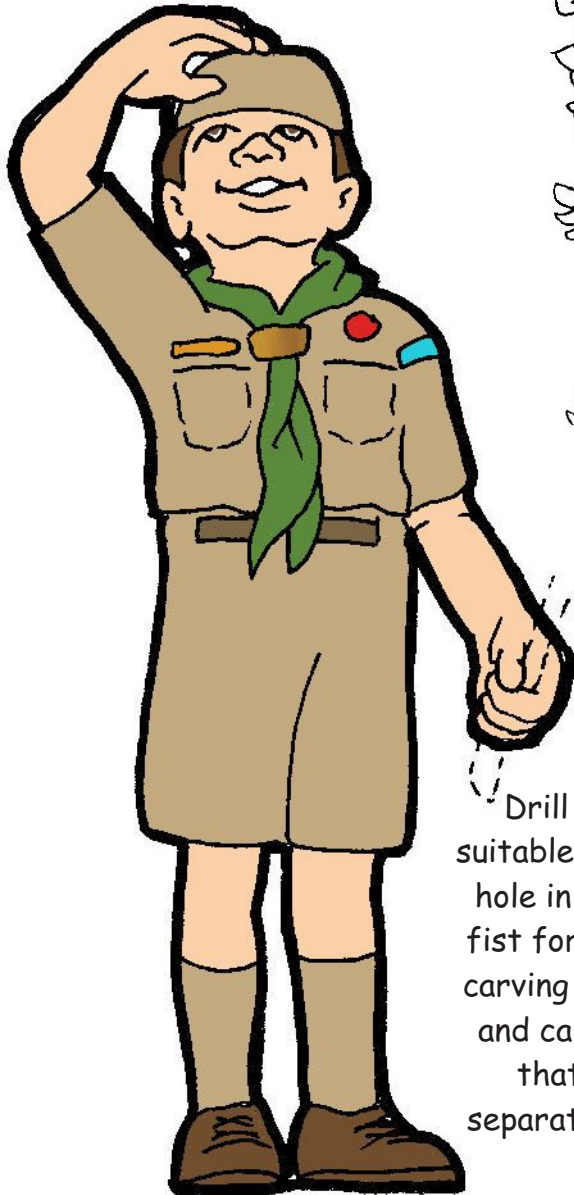

© 2011

This is where I
got my start...
carving when I was
a Boy Scout.
Neckerchief
slides were the
first projects.

Instead of a hatchet
you may have him
holding a knife or
perhaps some mallet
type tools.

I carved him
admiring a
totem pole he
just finished.

Drill a
suitable size
hole in his
fist for his
carving tool
and carve
that
separately.

3/4
reference
view.
