

Dear Santa,

I am positive that I am on the top of your "Nice" list because I have been a very very good woodcarver this year! I hardly ever cut myself. When sanding or spraying, I always wear a face mask and have good ventilation (or I do it outside - upwind). I get rid of every fuzzy I can see (most of the time), and when I use power tools, I always wear eye protection.

Santa, I realize it is tough for you, or your helper elves, to know exactly what a woodcarver would like for Christmas, so I've checked off a few items on my Woodcarver's Wish List and promise to leave you milk and cookies on Christmas Eve, unless you'd like something stronger (and I wouldn't blame you).

I will be grateful and thankful for whatever you bring me. Your woodcarver friend,

*Blessings
To All!*
