

# Ol' Don's Drawing Table

© 2017

I'm not really sure how much of a temptress this gal is but she will hold your toothpicks for you if you use a 3/4" diameter Forstner bit to drill a 1 1/2" deep hole as shown by the dotted lines. A small hole can be drilled between her teeth for inserting a toothpick there to emphasize what her role in life is.

## Toothpick Temptress
