"Sing pretty little angel, sing praises to the Lord"

Carve as an
ornament
or...

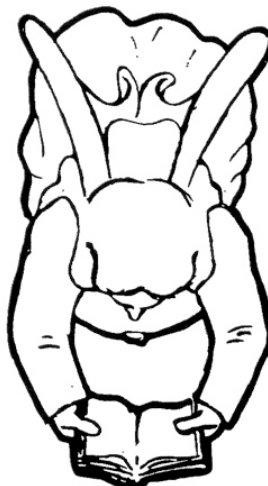

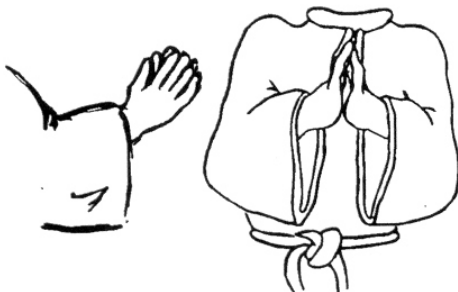

...Make her
free
standing

Grain direction is vertical. For stability the wings are attached to the body and together at as shown. 'Tho not shown, feather detail could be added to the wings if desired.

For a little variety or if you want
to carve more than one you
could do a praying angel...

...Or one holding a candle or,
without the candle, a palms
up attitude of praise !
